

Rwanda / Congo

Project No. 16

+GF+ "Adding Quality to People's Lives"

- The construction of deep wells and water supply lines ensures that 10,000 people who were forced to move after a serious volcanic eruption will now have a reliable water supply
- „More than a year after the eruption of the volcano, people again have hope for a better life“

Dr. Andreas G. Koestler, Managing Director of YME

-  took over the local project support function in 2003
