Project No. 24

+GF+ “Adding Quality to People’s Lives”

- As a result of support of the SODIS project, 100,000 people can now learn and utilize a drinking water treatment method that costs virtually nothing
- „The method is so simple that even our children can use it – many people no longer suffer from diarrhoea“

Resident of the island of Lombok

took over the local project support function in 2003
