GF Casting Solutions — a division of GF

Our company

Founded in 1802, the industrial group GF operates over 136 companies in 34 countries with its three divisions: GF Piping Systems, GF Casting Solutions and GF Machining Solutions. The skills, experience and dedication of our approx 15'800 employees that keep us going – day by day. You are fascinated by innovation, pioneering technology, have a hands-on mentality and would like to bring new ideas? Then we are the right company for you. We are looking for talented individuals who are interested in various technologies, customer segments and markets in an international environment. We offer a wide variety of new challenges, both in local teams as well as in international projects.

GF Casting Solutions

GF Casting Solutions stands for passion, precision and reliability. For more than 200 years we have been living a tradition of innovation that not only takes us forward, but also you. In close cooperation with our customers and partners, we develop the casting innovations of the future – from the initial concept to precise implementation and reliable validation. GF Casting Solutions is one of three strong divisions of Georg Fischer AG. Our 6800 employees at 17 sites worldwide play a leading role in the development and series production of casting solutions. We are looking forward to new team members who think ahead, have the courage to do something and want to grow with their tasks. Become part of the GF family!
