GF Machining Solutions – a division of GF

Our Corporation

Founded in 1802, the industrial group GF operates about 130 companies in more than 30 countries with its three divisions GF Piping Systems, GF Automotive and GF Machining Solutions. It is the skills, experience and dedication of our 14'800 employees that keep us going – day by day. If you too are fascinated by innovative, pioneering technology and would like to contribute fresh ideas and a hands-on mentality, we're a perfect match for you. We're looking for young, talented individuals interested in various technologies, customer segments and markets in an international environment. We offer a broad range of new challenges, both in local teams and international projects.

GF Machining Solutions

GF Machining Solutions is the world's leading provider of high-precision manufacturing technologies. We provide machines, automation solutions and services to the tool and mold making industry and to manufacturers of precision components. The most important customer segments are information and communication technology, aerospace, the automotive industry and the medical- and dental device industry. More than 3'000 employees in over 50 countries contribute to the success of GF Machining Solutions.

Your background

We are looking for applicants with the following backgrounds:

- Electrical Engineering
- Information Technology
- Materials Sciences
- Mechanical Engineering
- Business Administration

If you start your career with us
