GF Piping Systems – a division of GF

Our Corporation // Founded in 1802, the industrial group GF operates about 120 companies in more than 30 countries with its three divisions GF Piping Systems, GF Automotive and GF Machining Solutions. It is the skills, experience and dedication of our 14 400 employees that keep us going – day by day. If you too are fascinated by innovative, pioneering technology and would like to contribute fresh ideas and a hands-on mentality, we're a perfect match for you. We're looking for young, talented individuals interested in various technologies, customer segments and markets in an international environment. We offer a broad range of new challenges, both in local teams and international projects.

GF Piping Systems

GF Piping Systems is a leading supplier of piping systems made of plastics and metal. The division focuses on system solutions and high-end components for the secure transport of water and gas in industry, utilities and building technology. The product portfolio consists of fittings, valves, pipes, automation and connection technologies and covers all applications relating to the water cycle. Some 6 200 members of staff are employed in sales companies and agencies in over 100 countries worldwide.

Your background // We are looking for students in the following fields:

- Mechanical engineering
- Materials sciences
- Production technology
- Industrial engineering
- Process engineering
- Plastics technology
- Business administration

Your career start // We offer a wide range of careers. For example, you can join us as:

- Foundry technician (m/f)
- Plastics technician (m/f)
- Development engineer (m/f)
- Process technician (m/f)
- Resource planning specialist (m/f)
- Controller (m/f)

Entry options: Internships, final degree assignments or direct entry
